

## Eezibleed Multi-Purpose Cap - 15-67mm

This multi-purpose cap set brings the advantages of the Gunson Eezibleed brake bleeding system to a wider range of vehicles. This cap set fits vehicle reservoirs which have a neck opening but no screw thread. Easy to use, practical design featuring a sturdy universal cap, rubber seals and a strap that threads under the reservoir/servo unit with wing nut tensioners. Part of the Eezibleed range, designed to make brake bleeding quick and effective.

### Additional Information

- Allows the standard Gunson Eezibleed brake bleeder to be used on a wider range of vehicles.
- Multi-purpose cap design fits 15 - 67mm diameter reservoir openings.
- Suitable for reservoirs with a bayonet type fitting.
- Manufactured from composite material with rubber seals & a webbing tensioning strap for a secure cap seal.
- Part of the Gunson Eezibleed range. Designed to be used with Eezibleed, Part Nos. G4062 & G4062F. A larger multi-purpose cap (18 - 80mm) is also available, please see Part No. 77042.
