### INSTRUCTIONS

#### CAP

1. Cut hole in material to fit over cap stem.
2. Place material over stem.
3. Place flat side of socket over stem and material.
4. Place cap, material and socket on base.
5. With base on a sturdy surface, place bottom of flaring tool over socket and firmly strike the top of flaring tool with hammer until cap and socket are tightly fastened together.
6. Use guide to keep flaring tool straight when striking.

#### SCREW

1. Drill a hole 1/8" for screw stud in surface of corresponding material.
2. Attach Screw Stud.
3. Snap Cap to Screw to assure proper fastening.
