

## Dent Puller Kit

A dent repair kit, based around a mains-powered hot melt glue gun, designed to enable small dents and dings in vehicle bodywork to be reduced without causing damage to the paintwork. The kit also includes a dent pulling bridge, that allow for the glue pads to be slowly pulled up via the use of the wing-nut, together with a plastic pencil punch which is used to lightly knock down high spots.

### Additional Information

- Suitable for removing or significantly reducing small dents & dings from vehicle bodywork.
- Kit includes: 40W glue gun (240V mains powered, BS (UK) plug), dent pulling bridge with 2x pulling tabs, paintless dent removal pencil punch & a glue scraper.
- Also included: 2x glue sticks & a bottle of release agent.
- CE, GS & RoHS compliant.
- Spare glue sticks available, please see Part No. 77084.
